

LOTE Chinese

Hi students and families!

In LOTE Chinese, we'd like to celebrate some fantastic learning in term 1 across the year levels from 1-6. We have explored the traditional and modern practises of Chinese New Year. The students learned to say greetings, tell time, identify colours, fruits and animals, and have simple discussions about families and birthdays using newly learned and relearned Chinese words and phrases. The children also practised their listening skills while a Chinese story was read to them and they were able to translate the words they had learned. Writing skills were also demonstrated as they practised the Chinese characters for the vocabulary they were learning. Thank you to all the students who worked hard and for the families that support them. Enjoy the holidays, stay safe and I look forward to another great term ahead.
