Enrolment Information

The following information is required to ensure that your child is fully enrolled at school:

- Enrolment Form: A fully completed and signed 'Enrolment Form' must be returned to the school office.
 Note: In the absence of a current court order, each parent of a child has equal parental responsibility and details for both parents must be completed.
- Proof of Age: Official Documents: Birth Certificate, Passport, Citizenship Document, Australia Visa
 Document or Immicard. Unofficial Documents: Note from GP attesting to child's age with GPs stamp and/or
 Medicare Card indicating that your child turns 5 years of age by the 30th April in the year that they will commence school.
- 3. School Entry Immunisation Certificate:
 - The Australian Childhood Immunisation Register (ACIR) will automatically send you an Immunisation History Statement once your child has completed their 4-year-old vaccines.
 - The Immunisation History Statement should state 'This child has received all vaccines required by 5 years of age' at the bottom of the page (sample of excepted documentation see over).
 - If so, this document becomes the 'School Entry Immunisation Certificate'.
 - Take your Medicare card to a Medicare Office and request a printout of your child's Immunisation History Statement.
 - Sighting of the stamped immunisation booklet or documents produced by GPs or other immunization providers are not sufficient evidence to meet this requirement.
- 4. Student Consent Forms: All Student Consent Forms are located at the end of the Enrolment Form. The 'Consent Forms' (ie. Local Excursion, Media, Head Lice Checks and PG Movies) must be completed and signed by the parent/guardian as part of the enrolment process. A Photography Filming and Recording Annual Consent Form is also included and must be completed, signed by the parent/guardian and returned as part of the enrolment process.
- Overseas Students: Parents of children who were born overseas must provide a copy of the passport / visa
 documentation bearing the child's name. The school will photocopy the documents to record visa classification
 numbers.

Student's Permanent Residence

Your child's permanent residence is the address where they spend the majority of their days during the school week. If they spend an equal amount of time at two addresses, both are considered their permanent address and your child will be entitled to enrol in the designated neighbourhood school for either address.

The school may make enquiries to verify the information provided, such as checking the electoral roll at an Australian Electoral Commission office or the Victorian Electoral Commission head office; checking with a real estate agent; or checking whether there are any regulations/codes limiting the number of people living at one residence, for example if a rental property is a studio or one bedroom unit.

STUDENT MEDICAL DETAILS

The Department of Education and Victorian Government Schools require the health information requested in this section to plan for and support the health and wellbeing needs of students.

If there is a situation or incident which requires first aid to be administered to your child, school staff will administer first aid that is reasonably necessary and appropriate to their level of training. School staff will also seek emergency medical attention for your child if it is considered reasonably necessary. Any costs associated with student injury rest with parents/carers unless the Department of Education is liable in negligence (liability is not automatic). In the event that your child needs medical attention, school staff will contact you as soon as practically possible.

Digital technology at Melton West Primary School

Information for parents

Our commitment to the responsible use of digital technology

At Melton West Primary School, we are committed to building a culture of respect and responsibility. We show this in the way we use technology and interact online. We teach our students about responsible digital behaviours, including how to recognise and respond to online dangers and threats. We support students to develop the digital skills they need to make a positive impact in the world. We are intentional and discerning about our integration of digital tools into the curriculum, providing rich, interactive and personalised experiences, while ensuring a balance with offline learning opportunities.

What we do

We set clear expectations

- We have clear expectations about appropriate conduct using digital technologies.
- Our <u>Mobile Phone Policy</u> outlines our school's expectations relating to students using mobile phones during school hours.
- We have clear and appropriate consequences when students breach these expectations, in line with our <u>Student Wellbeing and Engagement Policy</u>.

We teach appropriate conduct

We teach our students to be safe, intentional, and responsible users of digital technologies, including age-appropriate instruction on important digital issues such as cybersafety and cyberbullying. At Melton West Primary School, this includes participation in the eSafety curriculum, the eSmart Leaders initiative for students in Grades 4 to 6, regular Digital Technology and safety lessons, and engagement in national events such as Safer Internet Day.

We partner with families

• We work with parents and carers to understand the digital technology-related issues they are facing at home. We support them with information and tools that help.

We provide access to technology

- We provide students with access to a range of educational software, including Epic!, Mathletics, Google Classroom (G Suite), and eLibrary, to support and enhance their learning.
- We create student email accounts which are non-identifiable.

We supervise digital learning

- We supervise students using digital technologies in the classroom, consistent with our duty of care. To support this, we use Zscaler to filter websites and Apple Classroom to monitor and supervise student device use.
- We also implement clear protocols and procedures to protect students working in online spaces.

We take appropriate steps to protect students

- We provide a filtered internet service to block inappropriate content. Full protection from inappropriate content cannot be guaranteed, however, we have processes to report and act on inappropriate content.
- We may access and monitor messages and files sent or saved our network, if necessary and appropriate.

We appropriately manage and respond to online incidents

- We work to prevent, respond, and learn from issues or incidents relating to the use of digital technology, including cybersecurity incidents, cyberbullying and risks to child safety.
- We refer suspected illegal online acts to the police.

Digital technology at Melton West Primary School How parents and carers can help

Learning about technology and its impacts doesn't stop at the school gate. Below are our suggestions for ways you can support your children to responsibly use digital technology.

	Establish clear routines						
	 Talk to your child about expectations including when, where, and how digital devices can be used at home, ensuring these rules are age-appropriate and consistent. These can include: Requiring devices to be used in a common area, such as a living room or kitchen Setting up a specific area for charging devices overnight, away from bedrooms, to promote better sleep hygiene. Be present when your child is using digital devices, especially for younger children who may not yet understand online risks. Discuss the risks of social media, including privacy, cyberbullying, and exposure to inappropriate content. Encourage open conversations and let your child know they can talk to you about anything they see or experience online. Encourage healthy digital habits, such as taking regular breaks, balancing screen time with offline activities, and thinking critically about what they see and share online. 						
	Restrict inappropriate content						
0	 Use built-in parental controls on devices and apps to help manage their device access and restrict inappropriate content, including apps and websites that are not suitable for their age group. Consider restricting the use of non-educational apps and apps with addictive game mechanics (e.g. rewards, badges, limited exit options). Stay informed about the latest social media trends, apps, and online challenges. The eSafety Commissioner's website provides up-to-date resources. 						
	Talk about online safety						
	 Talk with your child about the importance of protecting personal information and recognising online scams. Encourage your child to talk to you or another trusted adult if they feel unsafe online. 						
	Model responsible and balanced technology use						
$\overline{\mathbb{T}}$	 Encourage a healthy balance between screen time and offline activities, especially outdoor unstructured play and time with friends and family, face-to-face. Demonstrate responsible and balanced tech use in your own daily routine to set a good example for your child. 						
	Work with us						
1755	 Let your child's teacher know about concerns you have regarding their technology use Keep informed about what your child is learning at school, so you can help reinforce positive messages at home. 						

- *Australia's physical activity and sedentary behaviour guidelines include the following recommendations for children between 5-17 years-old regarding sedentary recreational screen time:
 - no more than 2 hours of sedentary recreational screen time per day
 - avoiding screen time 1 hour before sleep
 - keeping screens out of the bedroom.
